

REVISION OF LEAGUE COVENANT COMPLETED

SPECIAL PROVISION MADE IN DOCUMENT RESPECTING THE MONROE DOCTRINE

ALL NEUTRAL AND BELLIGERENT STATES WILL BE INCLUDED

PARIS, April 12.—(By The Associated Press)—An official summary of the revised covenant of the league of nations issued tonight, makes specific mention of the Monroe Doctrine, with respect to its bearing on the future activities of the league. It says: "The covenant does not affect the validity of international agreements, such as treaties of arbitration or regional understandings like the Monroe Doctrine, for securing maintenance of peace."

The league says the statement, will include all belligerent and neutral states in a document annexed to the covenant, and "in the future any self-governing country where admission is approved by two thirds of the states already members of the league."

Providing it has kept its obligations, a state may withdraw from the league on giving two years' notice, and states which signify their dissent from amendments approved by all the states on the council and a majority of those in the assembly, are not bound by them, but, in such case, cease to be members of the league.

Mandatories for the German colonies and the territories of the Ottoman empire are provided. These colonies and territories are to be administered by states willing to be mandatories of the league, which will exercise general supervision.

The official communication on the work of the league of nations committee says:

"The fifteenth meeting of the commission was held Friday evening under the chairmanship of President Wilson."

"The commission resumed its examination of the articles of the covenant as redrafted by the committee on revision. Articles 11 to 26 were covered. The appointment of a committee which should draw up plans of the league organization was authorized."

"The new text contains 26 articles. The entire document has been carefully revised from the point of view of redrafting, and it contains, in addition, its specific statement of a number of principles heretofore regarded by the commission as implicit as the covenant."

"Except for the technical task of bringing the French and English texts into accord, the covenant is ready for the plenary conference. It will therefore be made public in the course of a few days."

No Comment at Washington. Washington, April 12.—The official summary of the amended covenant of the league of nations was received in Washington today for officials and members of congress to study it for formal comment. It was apparent, however, that important changes were designed to meet criticisms made in the senate and elsewhere by friendly critics as well as opponents of the league.

It was pointed out that it was difficult to make a comparison of the official summary of the new covenant with the original constitution since it was possible to tell only what new matter had been injected and not how much of the old language had been retained.

Aside from the amendment mentioning the Monroe Doctrine as among "regional understandings" not affected, the change which seemed to attract the most attention here was that requiring a unanimous vote in both the assembly of states and the governing executive council in any decision upon a matter "of international interest or threatening the peace of the world." In the original, unanimous consent was required excepting the parties to a dispute. This change was intended to make it clear that no nation surrendered its sovereignty or right of individual action through membership.

Armed Force

Another change in a section much discussed in the senate debate requires the approval of each member state of recommendations of the council as to the amount of armed force to be supplied by those states to act on behalf of the league in moving against a state which has broken the covenant. Opponent of the original constitution insisted that this section took away from congress the power to declare war and might force the United States to send armies to fight for a cause in which the country was not interested.

The same kind of a change was made in the sections relating to disarmament and the administration of mandates over the former German colonies and territories of the Ottoman empire. It is specifically provided that suggestions of the council for reductions

Summary of League of Nations Covenant

PARIS, April 12.—The following official summary of the covenant of the league of nations was issued this afternoon:

"1. The league of nations is founded in order to promote international co-operation and to secure peace. The league will include:

(A) The belligerent states named in a document annexed to the covenant; (b) all the neutral states so named; and (c) in the future any self-governing country whose admission is approved by two-thirds of the states already members of the league."

"A state may withdraw from the league, providing it has kept its obligations to date, on giving two years' notice."

"2. The league will act through an assembly comprising not more than three representatives of each of the member states, each state, having only one vote, and a council comprising for the present one representative of each of the five great powers and each of four other powers as selected from time to time by the assembly."

"The number of powers of each class represented on the council may be increased by the unanimous consent of the council and a majority of the assembly. Other powers may have the right to sit as members of the council during the decision of matters in which they are especially interested."

"In the council, as in the assembly, each state will have only one vote. Both these bodies are to meet at stated intervals, (the council at least once a year; and at other times if required; both can deal with any matter that is of international interest or that threatens the peace of the world; the decision of both must be unanimous, except in certain specified cases, matters of procedure, for instance, being decided by a majority vote."

"The league will have a permanent secretariat, under a secretary-general. The secretariat and all other bodies under the league may include women equally with men. A permanent court of international justice and various permanent commissions and bureaux are also to be established."

"3. The member states agree: (a) to reduce their armaments plans for such reduction being suggested by the council, but only adopted with the consent of the states themselves, and thereafter not to increase them without the concurrence of the council; (b) to exchange full information of their existing armaments and their naval and military programs; (c) to respect each other's territory and personal independence, and to guarantee them against foreign aggression (d) to submit all international disputes either to arbitration or to inquiry."

"4. The member states agree: (a) to reduce their armaments plans for such reduction being suggested by the council, but only adopted with the consent of the states themselves, and thereafter not to increase them without the concurrence of the council; (b) to exchange full information of their existing armaments and their naval and military programs; (c) to respect each other's territory and personal independence, and to guarantee them against foreign aggression (d) to submit all international disputes either to arbitration or to inquiry."

"5. The member states agree: (a) to reduce their armaments plans for such reduction being suggested by the council, but only adopted with the consent of the states themselves, and thereafter not to increase them without the concurrence of the council; (b) to exchange full information of their existing armaments and their naval and military programs; (c) to respect each other's territory and personal independence, and to guarantee them against foreign aggression (d) to submit all international disputes either to arbitration or to inquiry."

Approval of all States Needed

Amendments to the covenant under the new draft require approval of all states of the council and a simple majority in the assembly, which is composed of all representatives of all member states. Originally a three-fourths majority was required in the assembly.

Another addition sets forth that the number of powers of each class represented on the council may be increased by the unanimous consent of the council and a majority of the assembly. Other new provisions include the acceptance of certain responsibilities with regard to labor conditions, treatment of natives, white slave traffic, opium traffic, transit and trade conditions, public health and Red Cross societies and formal recognition of the league as the central body interested in coordinating and assisting international activities generally.

HAYWOOD BOND SIGNED

Chicago, April 12.—Bond to the amount of \$15,000 for the release of William D. Haywood, L. W. W. leader who last October was convicted of violating the espionage act and sent to the Leavenworth penitentiary, was signed here today by George M. McIntosh of Peoria, Ill.

MAJOR-GENERAL HOLBROOK IS RECOMMENDED FOR OVERSEAS SERVICE

Camp Grant, Ill., April 12.—Major-General Willard A. Holbrook's name heads the list of fifty-six Camp Grant officers recommended for overseas service. Colonel Ben Darcy, commanding camp's convalescent center is in this list.

by the council, which later, however, may not pronounce an opinion on any dispute whose subject matter falls solely within a state's domestic jurisdiction; in no case to go to war till three months after an award, or an unanimous recommendation has been made, and even then not to go to war with a state which accepts the award or recommendation; (e) to regard a state which has broken the covenant as having committed an act of war against the league, to break off all economic and other relations with it and to allow free passage through their territories to the troops of those states which are contributing armed force on behalf of the league. The council is to recommend what amount of force, if any, should be supplied by the member states, and the approval of the latter is necessary. (States not members of the league will be invited to accept the obligations of the league for the purpose of particular disputes, and if they fail to comply may be forced.) (f) Not to consider any treaty binding till it has been communicated to the league, which will then proceed to publish it, to admit the right of the assembly to advise the reconsideration of treaties and international conditions which do not accord with present needs, and to be bound by no obligations inconsistent with the covenant."

"A state which breaks its agreement may be expelled from the league by the council."

"(4) The covenant does not affect the validity of international engagements, such as treaties of arbitration or regional understandings like the Monroe doctrine, for securing the maintenance of peace."

"(5) The former German colonies and the territories of the Ottoman empire are to be administered in the interests of civilization by states which are willing to be mandatories of the league, which will exercise a general supervision."

"(6) The member states accept certain responsibilities with regard to labor conditions, treatment of natives, the white slave traffic, the opium traffic, the arms traffic with uncivilized and semi-civilized countries, transit and trade conditions, public health and Red Cross societies."

"(7) The league is recognized as the central body interested in co-ordinating and assisting international activities generally."

"(8) Amendments to the covenant require the approval of all the states on the council and a simple majority of those in the assembly. States which signify their dissent from amendments thus approved are not bound by them, but in this case, cease to be members of the league."

the sick reports for the week of March 27. In the United States conditions are described as very good.

Since No. 11, 636,114 men have sailed from home, and up to April 8, 605,772 had been landed. There have been returned to civil life 1,701,469 officers and men, 46 per cent of the officers and 46 per cent of the men who were in the army when the armistice was signed. Discharge orders now total 1,925,000.

DEBS ORDERED TO SERVE SENTENCE

CLEVELAND, April 12.—The United States supreme court mandate ordering that Eugene V. Debs, Socialist leader be taken to Moundsville, W. Va., federal prison to begin a 10 year sentence for violation of the espionage act by making utterances against the government in a speech at Canton, O., was received by District Attorney Wertz this morning.

Wertz immediately got into communication with Debs by long distance telephone at Terre Haute and notifying himself here which Debs promised to do, saying that he was ready to go to prison and would make no further effort to delay carrying out his sentence.

Debs was found guilty by a federal court jury here on Sept. 12, last and has been on bail since.

Food Situation In Russia Very Grave--Hoover

PARIS, Friday, April 11.—Herbert C. Hoover, the food administrator has issued a statement with regard to the feeding of Russia. The statement says:

"The relief administration has carried on a great deal of investigation as to the actual food conditions in Russia. The gravity of the situation cannot be overestimated. A very conservative estimate would indicate that upward of 200,000 people are directly or indirectly dying from the food shortage, and the situation is likely to grow in intensity as the season progresses."

"Under the distribution system rigidly enforced by the soviet government in the larger cities, the children have the first priority on the food supply by way of meal service in the schools, which are open to children of all classes. The red guard and workmen have the second priority and the bourgeois and intellectual classes, etc., receive the remainder."

"Our reports would indicate that the children who attend the schools are being reasonably cared for, that the red guard is receiving a sufficient ration, but that the burden of the shortage falls upon the middle, upper and intellectual classes, and threatens their considerable extinction before the next harvest. How far this will be the practical result, however, is a little difficult to determine because of the great mobility to the country. The population of Petrograd has decreased by seventy per cent."

"The Lenin and Trotsky socialization of the processes of production has so wrecked both production and distribution as to create a state of famine in a country which formerly contributed so largely to the food supply of the world."

DISCUSS ENFORCEMENT OF PROHIBITION

WASHINGTON, April 12.—Enforcement of war-time prohibition which becomes effective July 1 is not lodged with the internal bureau or with any other government agency, but is left to United States attorneys, Revenue commissioners and local officials declared today after an analysis of all statutes and regulations.

Intimation that because of the apparent difficulty of enforcement the president or congress might be called on to postpone the law's operation, was given by Mr. Roper in a statement saying that "the issuing of licenses for the manufacture prohibited by the war-time prohibition act will naturally cease with July 1, assuming of course that neither the president nor the congress stays the operation of that law."

It became known today that a number of administration officials and advisers of the president had recently urged him to prevent prohibition from going into effect July 1 by proclaiming the completion of demobilization by that time. This view is understood to be held by Commissioner Roper, who is represented as believing prohibition cannot be enforced adequately without specific legislation establishing an enforcement agency.

UPRISINGS IN KOREA SPREADING

TOKIO, Sunday, April 6.—(By The Associated Press).—The uprisings in Korea are spreading and threaten to engulf the whole peninsula, says an official statement from the Japanese government today. There have been serious riots in the last three days in hundreds of places. A number of policemen have been killed and several police stations and postoffices destroyed.

Telegraph wires have been cut and bridges and homes of Japanese burned. The statement continues:

"The fact that the situation has grown worse may be attributed chiefly to the activities of Koreans abroad, especially in Vladivostok, who seek to propagate Bolshevism in Korea and thence in Japan."

It is believed here that the disturbances will be suppressed by the military. Press dispatches say Japanese troops have fired on mobs in different parts of Korea and killed many persons.

22nd SHIP LAUNCHED

Philadelphia, April 12.—Hog Island successfully launched its twenty second ship, the Salaria, a 7,500 ton cargo-carrier, today.

COMPLAINTS DENIED

Washington, April 12.—In connection with publicity given recently to complaints of American interests that British cable censors were using information from commercial cablegrams for the benefit of British trade, the State department issued a statement today containing specific denial of a report that Ayres, Bridges and Company, of Boston, had made such a charge.

MUTINY AMONG YANKS DUE TO RED PROPAGANDA

According to Official Reports Made by General March

WASHINGTON, April 12.—Official reports made public today by General March, chief of staff, show that the mutiny among the American troops at Archangel was directly due to propaganda circulated by Bolshevik sympathizers, all of the questions asked by the soldiers of their officers having been directly suggested in leaflets urging the Americans to revolt. The mutiny now appears to have been confined to the members of Company I, 39th Infantry, and to have ended when the men entrained for the front.

"I have not seen this leaflet," Gen. March said, "but I am very anxious to get it. I have had long experience in the army and I do not recall ever having seen American soldiers who did not want to get into a fight."

"We want to get hold of that Bolshevik pamphlet and find out just what they are up to."

One Small Agitator

Officers believe that events will show that the single agitator in Co. I who was arrested for refusal to obey, was very largely responsible for what happened. They regarded it as almost certain that he would prove to be a man with Bolshevik tendencies. The remainder of the company, it was said, would take a different view of their action when they realized how it was viewed at home.

The general situation of the forces at Murmansk and Archangel has been improved, General March said, thru the removal of the railroad from Murmansk south, bringing some of the southern outposts into touch with headquarters. He did not believe the military situation was at all alarming and said transportation was now open to such an extent that there would be little difficulty in withdrawing the forces.

General March called attention to the arrival at Murmansk of the American Cruisers Galveston and Chester with two companies of American Railway Engineers and Brigadier General Richardson. The arrival of the British troops transports is to be expected at any time.

Indications here are that a carefully laid plan for the withdrawal of the entire force has been mapped out by the British who are in charge of the expedition.

Propaganda Work Described.

New York, April 12.—Archangel advices received today disclose how the Russian Bolsheviks spread their propaganda among the American troops. The Associated Press has had a correspondent with the allied forces in northern Russia throughout the entire campaign. His dispatches have been the only detailed accounts of the activities of the American forces. He also told exclusively the story of the recent refusal of the American infantry company to go to front line trenches, later confirmed by General March.

A mail letter received today is particularly timely since it throws a clear light on the Bolshevik methods which General March discussed in Washington today. The letter, which tells of the Bolshevik propaganda follows:

How Work Was Carried Out. Archangel, Feb. 12.—(Correspondence of The Associated Press).—That the Bolsheviks are the world's best propagandists was demonstrated during the long, cold nights that occur in this region.

Down the line of the highway to Petrograd along which are the graves of the Americans who have fallen and where the Yankees had been fighting for months around a little five house village called Kadish, the Bolsheviks showed how expert they were in spreading their views. Generally they talked in Russian, their speeches being translated by interpreters in the American ranks. Occasionally they sent to Petrograd and got some ex-American immigrant to give a lecture in English on the reasons for Bolshevism to doughboys on the other side of No Man's Land.

For a long time when our lines on the Kadish sector were separated from the Bolsheviks only by a 75 yard wide stream almost nightly, there occurred a strange entertainment. Sometimes it was only a monologue, in which a Bolshevik orator on one side of the stream would loudly harangue the Americans. Sometimes it was a sort of a duel, in which the Americans would reply with "Can that stuff!" "What's eating you?" and other American expressions. Once the Bolsheviks gave a propa-

Exoneration of Iowa Attorney General Favored

DES MOINES, Ia., April 12.—Impeachment of Governor W. L. Harding and exoneration of Attorney General H. M. Hawley in connection with charges growing out of their activities in the Rathbun pardon case will be recommended to the Iowa house of representatives next week by its judiciary committee.

The committee, which last night voted to recommend impeachment of the governor, decided late today that the evidence was not sufficient to sustain charges of misconduct against the attorney general. The committee report probably will be given to the house Tuesday.

Reports that the Harding forces in committee would attempt to gain a recommendation of impeachment for the attorney general proved unfounded, as the committee voted down that proposal unanimously when it was presented in conformity with the plan followed in the case of the governor.

Considerable discussion resulted on the question of recommending censure for Hawley, but it was finally voted down 21 to 9.

The committee then appointed a committee to formulate a report on the Hawley phase, which will declare the evidence insufficient to warrant charges of impeachment or, in the opinion of the committee, even the censure of the attorney. The vote on this action was 26 to 3.

During the committee's investigation of the Rathbun pardon, Hawley was charged with concealing the granting of certain indictments when young Rathbun agreed to go to Anamosa reformatory to serve his life sentence for criminal assault.

The committee will recommend Governor Harding's impeachment on the grounds, it is understood, that he did not thoroughly investigate the case when application for pardon was made, and that when he found that fraud had been practiced upon him, he did not do his utmost to revoke the pardon.

FREIGHT RATES ARE REDUCED

SPRINGFIELD, Ill., April 12.—Freight rate reductions of ten cents a ton on road building materials, announced by the railroad administration, will result in a saving to Illinois of \$150,000 in this year's road construction program, according to Governor Lowden, today.

The new rates, Governor Lowden said, are from 40 to 50 per cent higher than the pre-war rates.

ASKS SUPREME COURT TO HEAR WIRE ARGUMENTS

Washington, April 12.—The government filed a formal motion today asking the Supreme Court to hear arguments at this term on the appeal brought by the government from South Dakota supreme court decrees denying postmaster General Burleson's authority to increase telephone rates and enjoining four telephone companies in that state from complying with an order issued by him last January 21, increasing toll rates. South Dakota authorities concurred in the motion.

ganda vaudeville show, following their English speaking orator's plea to come over and join them with an accordion solo.

Cry for U.S. Officers.

There were occasions when a Bolshevik officer would cry out from the dark that he wanted to talk to an American officer. One would go down to the middle of the bridge to meet him, taking his interpreter with him, and the three would stand out in the cold air. These conferences usually ended with the Bolshevik officers requesting that an armload of Bolshevik printed propaganda matters be handed to the American troops.

The Yanks would laugh all night at it and then go out and fight in better humor the next day.

It was on this same sector that the Bolsheviks, thinking that it might stir up discontent among the Americans if they knew that the war in France was ended, decided to advertise the fact. They did it in the night, hanging large red banners, printed in English, to trees.

In the printed propaganda great stress is put upon the claim that the Bolsheviks are working men, fighting against the capitalists of the world, and inviting the Americans to come and join the happy proletariat.

The Americans, so they themselves declared, have not yet figured out for themselves why they are up here after the war with Germany is finished, but they also say they took no stock in the "down-trodden workingmen stuff" of the Bolsheviks.

RACIAL EQUALITY AMENDMENT TO LEAGUE REJECTED

PARIS, April 12.—The league of nations commission has rejected the Japanese amendment on racial equality, according to an authoritative statement issued tonight.

Some of the members of the commission voted against the specific inclusion of this amendment in the covenant as unanimous approval was necessary. The amendment, which was strongly urged by the Japanese delegates, failed of adoption.

The statement follows:

"At a meeting of the league of nations commission Friday, April 11, the Japanese delegation proposed an amendment to the preamble of the covenant, as follows: To insert after the words 'by the prescription of open, just and honorable relations between nations,' an additional clause to read: 'By the endorsement of the principle of equality of nations and just treatment for their nationals.'"

"The amendment was presented by Baron Makino. In his speech he emphasized the great desire of the Japanese government and of the Japanese people that such a principle be recognized in the covenant. His argument was supported by Vice-count China."

"A discussion, followed in which practically all of the members of the commission participated. The discussion was marked by a complete appreciation of the commission of the disabilities which lay in the way of either accepting or rejecting the amendment."

"The commission was impressed by the justice of the Japanese claim and by the spirit in which it was presented. Mention was frequently made of the fact that the covenant provided for the representation of Japan on the executive council as one of the five great powers, and that a rejection of the proposed amendment would not, therefore, be considered as diminishing the prestige of Japan."

"Certain members of the commission, however, felt that they could not vote for its specific inclusion in the covenant. Therefore the commission was reluctantly unable to give to the amendment that unanimous approval which was necessary for its adoption."

The problem of the covenant of the league of nations, in which the Japanese sought the inclusion of their amendment reads as follows:

"In order to promote international cooperation and to secure international peace and security by the acceptance of the obligations of open, just and honorable relations between nations, by the firm establishment of the understandings of international law as the actual rule of conduct among governments, and by the maintenance of a just and a scrupulous respect for all treaty obligations in the dealings of organized people with one another, the powers signatory to this covenant adopt this constitution of the league of nations."

SERVICE

Passing time brings words into new meaning or new importance. Service is one of these words which has come into the new understanding and new appreciation. It is comprehensive. It includes most everything that is worth while. It offers an ideal fit for any individual or any community.

E. E. Crabtree as a candidate for mayor chose well when he summed up his thought of what a city administration should give—what Jacksonville needs in that word "service."

Mr. Crabtree by thought and by training and by experience knows what that word means. He knows Jacksonville. He knows business methods. He knows the value of a dollar. Yet he does not measure values wholly by dollars. He sees what "service" can mean for Jacksonville and if elected mayor he is ready to interpret that term to the best of his ability. A no-salary platform which includes "service" and is "for Jacksonville" merits YOUR SUPPORT.

THE PEOPLE SIT IN JUDGMENT.

Every city has men and women who have definite views on municipal matters but who fail to vote on election day. It is safe to say that many of the strongest critics of past city administrations in Jacksonville have not previously shown enough interest in the municipal life of their city to vote in the primaries or in the election following.

Don't let that be said about you after Tuesday. Jacksonville has

some serious problems to solve during the next two years. There is important work which has been begun and is unfinished. The times and conditions call for the best leadership that Jacksonville can give, for the most unselfish and efficient service. A glance at the names on the ballot which appears elsewhere in this paper will give proof that the opportunity is offered for the selection of city officials and councilmen of known character worth—men who can be depended on to loyally serve the people.

The pre-election campaign is now practically ended and there is no gainsaying that there never was such a campaign in the history of the city. A number of the candidates have simply expressed a willingness to serve and have placed their cause in the hands of the people. If the people do not believe in their competency and earnestness they do not crave election. The matter of selecting officials has been left to the calm judgment of the people.

There have been quiet, pussy foot campaigns before, sometimes followed by surprising results on election day. Don't let it be said after the polls close next Tuesday that you neglected to vote, that you thought your vote wouldn't be needed.

JUST GIVING THEM THEIR DUE.

The lower house of the Illinois legislature has shown its patriotism by passing unanimously the bill which gives preference in the state civil service department to returned soldiers. It is proposed to have a bill of the same kind passed affecting cities where civil service boards are maintained. The Illinois legislature simply voices the feeling of the people in this measure for there is a unanimous desire to furnish desired employment for all men returning from the big task overseas.

If all the men and women who believe in E. E. Crabtree personally, who do not question his sincerity or doubt his ability, go to the polls and vote Tuesday, he will have the heaviest majority ever given a mayoralty candidate in Jacksonville. Such a majority will not only be gratifying but it will give the administration an impetus, an enthusiasm that nothing else can contribute. It always heartens men who are attempting public service to know that others believe in them.

THE MULTIPLICITY OF CAMPAIGNS.

One good thing about these days is that some special movement for the betterment of mankind is

always under way. If you don't join in any of these improvement movements it's not for the lack of opportunity. Not far away is "health promotion week" suggested by the department of public welfare and endorsed by the Illinois legislature, and by a half a dozen other more strong Illinois organizations.

Certainly there are some startling facts about health which amply warrant such a campaign. During one year in this state there were 24,000 funerals which came about from preventable diseases and in addition there were 83,000 other cases of preventable diseases. When you get to figuring the dollar and economic losses to the state resulting from these funerals and these cases of illness, the figures are really appalling.

GROWING CALMER

Most of the violent talk about protesting against enforcement of the prohibition amendment seems to have died out. This is partially because on sober second thought most people have realized nothing is to be gained by violence and there is the further reason that the liquor interests have employed eminent counsel to find if there is any legal way to get by the provisions which the law seems to impose.

There is some quieting effect too from the Michigan result which must have been an eye-opener for the liquor interests, for they had the feeling the people were not really in favor of prohibition provisions. Possibly the strongest factor in quieting the opposition is the belief that state legislatures or the people in the several states still have some authority in the interpretation of the law and the definition of intoxicating beverages remains to be written. It is quite possible that in some states this definition will be of a kind to permit the use of wine and beer of low alcoholic content.

TEACHERS AND THEIR PAY.

Morgan county teachers are doubtless just as anxious to secure higher salaries as are teachers elsewhere and certainly their deserts are equivalent. In Springfield the high school teachers recently made a demand for 20 per cent increase, or a minimum of \$1200 a year. The teachers' association of that county is following a campaign of publicity and using advertising in the Springfield papers. A paragraph from one of the advertisements reads: "Some tax payers say that teachers should have a higher motive than teaching for a salary. Teach from love of the dear

children," says the tax payer. Oh, no, not until fathers pay taxes for the love of their dear children."

The time is not far back when teachers would have thought it unprofessional to make request for salary increases in this way, or even if no thought of being unprofessional stood in the way, they would have been afraid to make such insistent demands, but times, conditions and customs have changed.

LEARNING THE VALUE OF PUBLICITY.

The National Advertising Association recently predicted that more advertising would be done in the coming months than ever before, and a glance at both local and metropolitan papers gives evidence that this prophecy is coming true. The Liberty loan successes and the program of other war time activities were so associated with publicity which is another name for advertising, that the public has come into a new understanding of its value. Possibly that is one of the reasons that the teachers mentioned above have adopted publicity to aid in securing the salary increases they feel are due. Certainly this new knowledge of value of publicity in part accounts for the widespread advertising work that the churches are doing.

In Bloomington the churches have combined in newspaper advertising and are carrying three column space in the papers and advertising not only special church services but emphasizing besides what the church is contributing toward life and civilization. The advertisements are wholly undenominational and the Bloomington ministers and church people are simply trying to bring into the lime light the church as a whole.

THE TUMBLER

My car has stood in solemn state since winter came to pass; but now that winter's pulled its freight, and gentle spring is at the gate, it's time to burn some gas. This morning to the barn I stepped and looked the turmoil o'er, where it through long long sat me down and wept; my tears splashed on the floor. I hoped to swell my meager roll when winter days were done; I said "In spring a patient soul won't have to blow himself for coal, and so he saves some mon. In winter time he has no chance to salt away a bone; he's always digging

from his pants the wherewithal to feed his aunts, and buy the children pone." And now that spring is here, alas, extinguished are hope's fires; my bank account will cut no grass; I'll have to buy up oil and gas and costly tubes and tires. My bumboat must be overhauled by skilled and gifted gents; and when they have fixed and doled, and with their little bills have called, I won't have twenty cents. For bank accounts all sane men crave, but they are hard to get; for we're always planning how we'll save; and when it's time to buy a grave we have to go in debt.

Winchester, April 12—Rev. W. R. Johnson was one of the party that went to St. Louis Friday in the interest of the Liberty loan. Earl Patrick will leave Sunday for his home in Kansas City. He was called here by the death of his grandmother, Mrs. Mary Ann Patrick.

Mrs. Leroy Pape and infant daughter left Saturday for their home in Rockford. Mr. Pape's mother, Mrs. George Brengle, accompanied her home.

A few of the relatives of Mrs. George Lashmet gave her a pleasant surprise Wednesday evening at her country home southeast of the city. The affair was in honor of Mrs. Lashmet's birthday and the evening was one of great social pleasure. During the hours refreshments brought by the guests consisting of ice cream and cake were served.

Mrs. Charles McColley was able to be at the Hainsfurther store Saturday after being confined to her home the past week by illness.

Mrs. W. F. Gibson arrived Saturday from Greenfield to visit at the home of Mr. and Mrs. Earl Nelson.

Mr. and Mrs. Roy Hamilton have gone to housekeeping on the late Stephen Hamilton farm west of town.

Earl Owings arrived Saturday from Canton to visit his parents, Mr. and Mrs. George W. Owings.

A MESSAGE FROM

RICHARD PYATT
From his room where he has been confined for the past five weeks with a severe attack of pneumonia Richard L. Pyatt yesterday sent the following message:

"I hope that my friends will remember to give me their support on election day. There has been no opportunity for me to make any canvass, to write letters or send phone calls reminding about my candidacy for the city clerkship. I want to say just this—while serving as clerk I have always sought to keep in mind that I was a public servant and that all the people who called at the office were entitled to anything I could do for them.

"The people must judge whether or not I have treated them courteously and served efficiently. I know that has been my ideal. I know too that I am familiar with the business affairs of the city and that if elected clerk I will always be found 'on the job' ready to give the best that is in me for the people of Jacksonville."

BACK FROM

OVERSEAS SERVICE.
Francis Sloan, who has been in the overseas service of the army for nearly a year, returned to Jacksonville Saturday morning. He left home last April with the contingent going to Camp Dix, and within a few weeks was on the way to France. He served thru the battle of the Argonne forest and several other principal campaigns of the final months of the war. He was fortunate enough to escape serious injury.

"LITTLE WOMEN"

A Paramount-Artcraft Special

Isn't this just like a woman?

Isn't it really? To thro' wher arms around a fellow, to kiss him, and then to—to be sorry of it? Oh, well! Such is love! (Whisper: That's what makes it interesting.)

Incidents like these, with which "Little Women" is replete, have made it such a popular story that 2,600,000 copies of the book have been sold. But there is no need to read the book now. Jo and Beth, and Meg, and Amy, and Laurie, and Professor Baer, will live before your eyes in one of the happiest entertainments you ever enjoyed.

How Large an Estate Warrants Trust Company Service?

A large estate needs trust company facilities because of the variety and magnitude of its interests. So many kinds of expert service can be found only in a well-equipped Trust Department.

The small estate needs trust company service because losses are more seriously felt and expert individual attention is more difficult to obtain at a price which the estate can afford.

Both small and large estates are accepted by this company. There is no reason why a small estate should not enjoy the full protection afforded by a trust company.

We invite conference with men of property in regard to their estates.

LEGION BRANCHES WILL
BE CALLED DUGOUTS

New York, April 12.—Branches of the American Legion, the newly formed legion of American soldiers and sailors who served in the world war, will be known as "dug-outs" if a suggestion made today at the headquarters of the

temporary committee is adopted. The suggestion will be considered at the St. Louis caucus, May 8. The idea of using the word "dug-out," a term made famous by the war, is to obtain a designation distinct from the "posts" of the G. A. R., or the "bivouacs" of the Confederate Veterans.

Our Conscientious Objectors

There are people living in this town, you know them, I surmise: who object to everything on earth, also the sun and skies.

As yet I haven't heard them say a word against the moon, but you can bet your last kopeck you'll hear them very soon. They'll want to plant their 'taters and will yell because its light, they want to plant them in the dark so they won't take the blight.

Nothing ever suits them, they're always hunting ways and means to find out just exactly who it was that spilled the beans.

They hold a meeting now and then to find the reason why, after all the knocking they have done, the dern'd old town don't die.

I hope some great big husky guy will take the whole caboodle outside the city limits, and tap them on the noodle.

Your attention for just a minute! In behalf of the company, I wish to thank you for your kind attention and liberal patronage. Remember we give an entire change of program each week. If you like the show, tell your friends. If you don't, well, you have our consent to join the Conscientious Objectors.

I do wish to announce that any one needing Accessories or supplies for their autos will find the very best at Skinner's Supply Store, 211 South Sandy St.

Thanking you again, we will conclude the entertainment with a one act farce entitled, "Golf Bugs Don't Have Wings."

Next week something about Hamlet. Don't fail to see it.

Yours truly,
JACK.

Samuel Gompers Is Eulogized By William H. Taft

NEW YORK, April 12.—Samuel Gompers, America's veteran labor leader, was eulogized here today by former President William H. Taft as the man who in 1918 had "stabilized" the workers of the world and helped win the war when German propagandists had divided the ranks of labor abroad and were scheming to bring about a negotiated peace.

Speaking at a luncheon given by the National Civic Federation to Mr. Gompers and his four colleagues on the American labor mission who have just returned from the peace conference, Mr. Taft said he wished to pay his respects to "union labor leaders who have achieved a great thing not only for organized labor, but for the allies and toward the winning of the war."

Mr. Taft declared for a great reorganized labor and capital to avert the spread of insidious and destructive anarchistic doctrines from abroad. He advocated "collective bargaining" and said he was convinced that the workers have a right to sit in council with employers and discuss such questions as production, costs, wages and the hours of labor.

Mr. Gompers told him the five American delegates to Paris conference had fought at 35 "grinding" daily sessions from three to seven hours each, to uphold the ideals of democracy and, by argument and persuasion, finally won a majority of their 88 foreign conferees to their point of view.

He said they had opposed the idea of allied union labor men attending the international socialist conference at Berne, and while some of their British, French and Italian fellow workers had fallen under the blandishments of German propaganda, the American delegation stood firmly from the first against "treating with Germany or Austrian labor delegates against whose countries the allies at that time were at war."

Referring to the threatened spread of Bolshevism, Mr. Gompers said it reminded him of the Bible story of blind Samson between pillars of the temple, bringing down death and destruction to all within the structure.

"Bolshevism is not the only danger confronting our institutions. The standpatter, reactionary and the profiteer are equally a menace to our civilization."

"The individual autocrat who thinks he is master of all he surveys is the motive power for all the resentment and hatred and strife that exists in the world today."

Expressing satisfaction that Mr. Taft had come out in favor of "collective bargaining," Mr. Gompers agreed with the former president that it would not be a solution of the labor problem.

ADMIRAL CAPERTON WILL RETIRE
Washington, April 12.—Admiral William B. Caperton, in command of the Pacific fleet since May, 1917, will be relieved from that duty on April 30, and pending his retirement on June 20, will be detailed to prepare a detailed memorandum of his service for the historical section of the navy. He arrived at New York this week on his flagship the Cruiser Pittsburgh.

URGENT APPEAL
MADE FOR LOAN

WASHINGTON, April 11.—In a Victory Liberty Loan appeal made public here today by the treasury, Secretary Lansing, Henry White, Col. E. M. House and Major General Bliss, American peace commissioners at Paris, pleaded that the people of America not relax their efforts "until every soldier of the republic is landed on the soils of America."

"To finish this mighty task," says the appeal, "imposes upon the government a great financial burden. The Victory Liberty Loan must thrive. If it should fail it would indicate that the nation is willing to leave its task uncompleted."

"To secure the ideals for which Americans fought and died, this great demand on national patriotism and united effort should meet a generous and universal response."

NEW YORK FACES
ANOTHER TIE-UP

NEW YORK, April 11.—Another general tie-up of New York harbor appeared imminent tonight when officials of the Marine Workers' affiliation announced that 5,000 union members employed on boats of the railroad administration had been summoned to a mass meeting Monday to consider the administration's action today in dismissing 84 men.

William A. Maher, vice-president of the affiliation, declared that unless the men were reinstated, "it looks as if we will strike."

The 84 men dismissed today are said to have refused to tow barges whose owners had not settled with the union.

28TH DIVISION
ASSIGNED HOME.

Washington, April 12.—The war department announced today that the 28th (Pennsylvania National Guard) division, and not the 29th as announced yesterday, had been assigned to early convoy.

A cabled correction came from General Pershing.

WILL DEBATE LEAGUE.

Washington, April 12.—Senator Pomeroy of Ohio, Democrat, today accepted an invitation to engage in a joint debate on the league of nations with George Wharton Pepper, Philadelphia attorney, in Indianapolis on April 16, before the Indiana Manufacturers' association.

BERLIN HOUSEWIVES
GIVEN FIRST FLOUR.

Berlin, Friday, April 11.—(By the Associated Press)—The housewives of Berlin have been supplied with the first installment of the flour which recently arrived from the United States, the allotment being at the rate of half pound for each person.

The price fixed by the authorities is two marks, twenty pennings the pound, which is seven times peace time prices.

YANKS GUARD
GERMAN BANKS.

Coblenz, April 11.—Friday.—(By the Associated Press)—American troops today began guarding German banks in Coblenz and Trier because of reports that the strikers among bank clerks in unoccupied Germany might spread to the occupied zone. The clerks in the American area, however, continue at work.

U. S. SOLDIERS CARED
FOR BY ENGLISH

LONDON, April 11.—The total number of American soldiers patients in hospitals in Great Britain during 1918 was 47,862. About one-fifth of them were wounded or injured, the remainder ill. When the armistice was signed 9,310 Americans ill and wounded were being cared for in American hospitals here, says an American Red Cross report.

When the United States entered the war the only hospital beds available for American soldiers were in two or three American Red Cross hospitals which were then being used for British troops. So rapidly were provisions made by the Red Cross that by the time American troops began to pour into France and England the supply of American hospital beds was ample. It was only during the influenza epidemic last fall that the demand exceeded the supply. In October and November many cases had to be sent to British hospitals, where at one time the number of Americans cared for reached 5,584.

The United States army personnel engaged in American hospitals in Great Britain numbered about 3,200, that of the American Red Cross was about 400.

New Labor Party Adopts Platform And Adjourns

SPRINGFIELD, Ill., April 12.—The new labor party of Illinois closed its first state gathering here today amid lively scenes upon the floor of the convention. Insistence of delegates with socialist leanings to adopt a resolution commending the socialist party for the work it had been doing in behalf of labor and inviting members of that organization to join hands with the new labor party of Illinois almost broke up the final session. Also a fist fight flared over matters for a time.

The resolution which was being discussed, was amended, however, to read that the convention "extend an invitation" to all persons of the socialist movement in Illinois to join hands with members of the new party. The resolution as amended was adopted.

Shortly after the adoption of the resolution, one of the delegates who had been reading a paper, rose and asked that the convention take some action in behalf of Eugene Debs, the socialist leader. The delegate said the newspaper told of Debs' coming imprisonment. Several delegates soon jumped to the floor and fought the movement to take action at this time in behalf of Mr. Debs. After a heated debate and much oratory, it was agreed that the question of the convention's taking action in the Debs' matter be referred to the executive committee, which move it was said was deemed appropriate at this time.

During the debate, two of the delegates leaped to their feet and came to blows which stopped all argument until the sergeant-at-arms and some of the delegates separated the participants. After quiet was restored, Duncan McDonald, chairman of the convention, issued a statement in which he stated that "the altercation between the two principals which resulted in the culmination of a personal altercation, which was entirely disassociated with the matter under debate."

The committee went on record as favoring the passage of a number of labor measures now pending in the state legislature, and the chairman asked that all delegates consider themselves self-supervised delegates of the party to work in behalf of the party in their home communities.

The election of Duncan McDonald as permanent chairman of the new party, the election of an executive committee of 15 members and an auditing committee of three members, in addition to the adoption of a number of resolutions, occupied the rest of today's session.

The convention adjourned at 5:20 p. m.

NO CHANGE IN GRADE

Washington, April 12.—Through a typographical error in a recent army order the impression was given that Maj. Gen. Harry C. Hale of the Twenty-sixth division had been returned to his regular army rank of brigadier general. The war department announced today that there had been no change in the general's grade since his return from overseas.

CIVIL WAR IN
MUNICH IMMINENT

BERLIN, April 12.—(By the Associated Press)—Civil war in Munich is regarded as imminent following the action of the communists in deposing the revolutionary council republic. Three would-be governments are now in existence in Bavaria.

The first act of the communists was the creation of a council of ten, which was proclaimed in power. Armed bands then stormed the police station, disarming the police and arresting several officials as hostages. The communists were aided by the Russian Bolshevik leader, Dr. Leven. The peasants' ban on the shipment of food to Munich is operating with disastrous effects. Augsburg, likewise, is cut off.

POSTPONE ATLANTIC FLIGHT.

St. Johns, N. F., April 12.—The attempt of Aviator H. G. Hawker to fly across the Atlantic in a Sopwith airplane was postponed at six o'clock this evening until tomorrow.

Hawker today made preparations to start his flight. The weather conditions were favorable and the British airman proposed to start at 5 o'clock, but when that hour arrived the preparations had not yet been completed. At six o'clock weather conditions changed for the worse.

Oliver Hamm had a span of mares mules, full sisters, five and six years respectively, weighing together 2,910 pounds and wearing 22 inch collars, jet black and gentle as kittens. They were looked on with eager, longing eyes by a number of dealers and finally Harry Norris bought them for \$700, the highest price. Harry thinks, ever paid for a span of mules in the county. He says he doubts if they are put to work as it is more likely they will be used for exhibition purposes.

C. P. GILLET WILL
NOT RETURN TO I. S. D.

Resignation as Managing Officer Recently Accepted by Welfare Department—H. T. White Appointed.

Just about a year ago Charles P. Gillett sent his resignation as superintendent of the School for the Deaf to the department of public welfare. At that time the resignation was not accepted and instead the department offered Mr. Gillett a year's leave of absence and a little later he accepted temporary release on this basis. Recently Mr. Gillett sent to the department his formal resignation, as he finds it advisable not to return to institutional life. Yesterday notice of the acceptance of Mr. Gillett's resignation was made public. Effective April 1, 1919, and the appointment of H. T. White as managing officer effective from the same date was announced.

Mr. Gillett has spent the greater part of his life since maturity, associated with the School for the Deaf, as he served as assistant to his father, the late Dr. P. G. Gillett, for a period of twelve years. Following the sudden death of Dr. J. C. Gordon in 1903 he was appointed acting superintendent, a position he continued to hold until the spring of 1918.

Mr. Gillett has a farm in Pike county which occupies a part of his time and is associated with Frank Mather in the operation of a Morgan county farm located near Jacksonville. He also expects to spend part of each year in Florida, where he has an orange grove. Mr. Gillett leaves the state work after a long period of efficient service and with the good opinion of the department officials.

Mr. H. T. White, who has been acting managing officer for the past year, has taken hold of the work with vigor and intelligence and his year's record has been such as to make his appointment as managing officer the natural course.

KIDNAPPER'S UNDOING
DUE TO DRINK

Authenticated Wonder Story Comes From Nearby City—Grown Young Man Held for Ransom Escaped When Captors Were too Convivial.

The following veritable tale was received Saturday in a private letter from nearby St. Louis town:

Tonight Dr. Smith who runs a home for feeble-minded here in G— was at the lecture and had with him a tall 18 year old boy with the most romantic story.

A few days ago he was in the Broad St. Station in Philadelphia with two boys, all on their way back to a school in Pottstown. The two boys left him for a few minutes and three men stepped up, showed a star and told him he was arrested for spitting on the floor.

They marched him off, put him in a machine, gagged him, and covered his face as if he were hurt or wounded; put him in the drawing room of a Pullman and brought him to Chicago. They then took him by machine to St. Louis and locked him in a basement tied to a chair and kept him guarded. They had made him write his family that he was being held for a ransom.

Last night the men went on a spree; two of his guards went upstairs in the house to play cards, and the man left to guard him was so drunk he fell asleep. The boy, who is over six feet tall, wriggled out of the chair, got out the basement window and escaped. He ran as fast as he could, went to a telegraph station to notify his family that he was all right and to ask for money.

The family knew that Dr. Smith lived at G— (though the boy wasn't acquainted with him) for the doctor had known the family for years so they telegraphed him to look the boy up in St. Louis.

The doctor had little difficulty in tracing him and found him in a telegraph office where he was waiting for a wire from his family, and the doctor brought him out to his home.

The escape took place last night and Dr. Smith found him today (Friday). Isn't that exciting? Think of the nerve taking a big chap like that—about the size of Morrison Worthington!

MISS POTTER WEDS
CHICAGO MAN

Bride Is Niece of Dr. and Mrs. Charles E. Scott—Spent School Days Here.

Many Jacksonville people will be interested in knowing of the recent marriage of Miss Grace Irwin Potter to Mr. Russell Eugene Anderson. The ceremony was solemnized in Chicago last Tuesday with Rev. Dr. Boynton, pastor of the Baptist church at the corner of University Place and 62nd Street officiating. Mrs. Anderson is the daughter of Mr. and Mrs. Eugene T. Potter of Chicago, but is well known in this city, as she spent seven school years in the home of her aunt and uncle, Dr. and Mrs. Charles E. Scott of Westminster street. She graduated at the Jacksonville high school in 1914 and subsequently took a special course in domestic science at Lewis institute in Chicago. This work was supplemented by a special course in organ music.

While here Mrs. Anderson was especially popular in the younger society circles and an enviable spirit gave her numerous and lasting friendships. Her popularity extended to her after school days in her home community, so that there are many people now who will join in extending congratulations and good wishes.

Mr. Anderson is the son of Mr. and Mrs. Charles E. Anderson of Iron Mountain, Mich. He has recently returned from nearly a year's service overseas. He was a member of the 37th engineers and in the army service had rank of major engineer. He is a graduate of the University of Michigan in 1913 and perfected himself as an electrical engineer and when he entered the army was with the well known firm of H. M. Byllesby Co. in Chicago. Although a young man he has already made an excellent record in his special work.

Mr. and Mrs. Anderson have gone for an extended wedding journey to various cities in the east and on their return will make their home at 1425 E. 60th street, Chicago.

WILL OF THE LATE J. Z. SMITH FILED

Document was Drawn Dec. 13, 1918, Provides for Payment of Stipulated Sum Annually to Daughter-in-Law.

The will of the late Jozeno Ferreira, usually known as Joseph Z. Smith, was filed yesterday in the office of County Clerk G. L. Riggs. This instrument was drawn Dec. 13, 1918, with Albert Mollenbrok, F. L. Gregory and W. E. Thomson as the witnesses to the signature. One paragraph of the will provides for the payment of a stipulated sum each year after Jan. 1, 1919, to Mrs. Ruth R. Smith, daughter-in-law of the testator, and his housekeeper. Judge Thomson said yesterday that when the will was drawn only a few months ago Mr. Smith figured his life expectancy at least ten years. Payment of debts was provided for and the testator left his right in lot 7 of sub-division Madeira addition to Jacksonville, known as No. 742 West Freedman street, to Mrs. Ruth R. Smith. He provided further that unless the various heirs interested in the property transfer their

right that the following sums shall be paid by them to Mrs. Smith or deducted from their share in the residue of the estate: Arthur Smith, \$100; Joseph Smith; Ruth and Ellen Angelo \$50 each; Clyde and Clarence Nunes \$25 each. To his son, Jozeno Ferreira the testator left lots 69 and 70 in car shops addition. Subject to the condition above named, he left \$100 to each of his grandchildren. To his son-in-law, Arthur Ferreira, the testator left lot 11 in Car Shops addition and 5 acres of land in 15-15-10.

Another provision was made that \$25 a year after Jan. 1, 1919, should be paid to Mrs. Ruth R. Smith in addition to the weekly wages allowed her as housekeeper. The residue of the estate, including property at 922 Duolin avenue, is to be sold and after legacies are paid the remainder is to go to Arthur Ferreira, who is named as executor of the will.

SPECIAL SHOWING OF NEW EASTER MILLINERY ALL NEXT WEEK. H. J. & L. M. SMITH.

MRS. SANDERS, VETERAN. The Illinois Advance, published at the School for the Deaf and of which W. S. Camp is editor in the last issue pays a deserved tribute to Mrs. Sarah Sanders who for thirty-five years has served as chief cook at the school. Mrs. Sanders has served faithfully and well with a devotion to duty that few in this world attain. Her motto seems to have been that "he is greatest among you, who is servant of all." Mr. Camp tells of Mrs. Sanders in this vein: "Thursday of this week marked a mile stone in the career of Mrs. Sarah Sanders, chief cook at the Illinois School for the Deaf. On that day she had completed her thirty-fifth year of service as cook at the institution, and she celebrated the anniversary by going about her duties as has been her custom during all these long years. Mrs. Sanders is a faithful, conscientious worker and she enjoys the friendship and high appreciation of all with whom she comes into contact. During all these long years of labor "Duty" has been her watchword, "Work" her constant companion and "well Done" the verdict of those who know her and of her faithful service.

"Thirty-five years is a long stretch of time. It exceeds the average life of man. During that time the world has made vast changes. Civilization has advanced, receded and again advanced. Invention has lightened toil and enhanced pleasure. Generations have come and lived their lives and passed on to their awards. Nations have arisen to attain glory or to perish. Social life and its customs have been revolutionized. During all these many and long years Mrs. Sanders has in the dignity of her splendid competence presided over the institution kitchen in that fine attitude of admirable simplicity which is one of her pleasantly marked characteristics. With the highest regard and the utmost respect we claim the privilege of "knighting" her and dubbing her "Our Grand Old Woman of the eat." *

"At her dinner table Thursday noon Mrs. Sanders found thirty-five carnations and a cake with thirty-five candles; also a note of appreciation from officers, employees and pupils."

Pythians to Roodhouse. A number of Pythians went by automobile to Roodhouse Friday night to attend a session of Worcester lodge. Work in the first and second degree was put on and the Pythians thoroughly enjoyed their visit. Incidentally they did some preparatory work for the D. O. K. K. ceremonial which is to be held here April 23. Among those who went to Roodhouse, both parties going in cars were B. C. Lair, George Wiseman, Charles Godfrey, C. E. Magill, Earl Richardson, James Guyette, G. C. Cannon, Lloyd Hall, Clarence Sway, Lee Stice, W. F. Council, L. F. Jordan, S. Green, Mason Rowe, C. B. Massey and Lon Barrows.

DR. THRAP'S CHURCH IN SEATTLE

Jacksonville friends of Dr. R. F. Thrap, formerly pastor of Central Christian church are very much interested in his work at Seattle, Wash., where he went from Los Angeles a few months ago. It was not long after Dr. Thrap began his Seattle pastorate that the project for a new church took definite form. George T. Douglas recently received a bulletin of the Seattle church which gives a picture of the proposed new building and it certainly will be an imposing structure. The estimated cost is \$100,000 and at a recent meeting more than \$45,000 was subscribed.

The committee believes that at no distant date the total sum will be secured. The church will have a seating capacity of 650 in the auditorium and balcony and the plans for the structure show that it will be equipped in a modern way for various departments of the church work.

BULLETINS

PARIS, April 12.—(Havas.)—The Temps prints a wireless message from Kiev, announcing that Ukrainian soviet troops have occupied the railway center of Dohonkov.

A dispatch from Moscow says General Anselme, French commander at Odessa, had asked for three hours in which to evacuate that city. The request was refused and the Bolshevik forces forced the city when the allies withdrew to their entrenchments in the villages of Taparka.

COPENHAGEN, April 12.—A wireless message from Munich says heavy fighting occurred at the railway station there last evening, and a decisive struggle was expected hourly.

COPENHAGEN, April 12.—The provisionally revolutionary central council at Munich has demanded all arms held by the bourgeoisie be surrendered within 24 hours, says a dispatch from Berlin.

BERLIN, April 12.—Former King Ludwig of Bavaria crossed the Swiss frontier last night. He has taken up residence in the home for aged Catholic priests at Zizers, in the canton of Grisons.

WASHINGTON, April 12.—A verdict for the plaintiff with damages fixed at \$80,000 was returned late today by the jury in the suit of the Baltimore Federal League Club against the American and National Leagues and certain officers of the defunct Federal League. As the suit was brought under the Sherman anti-trust law, the damages will be trebled, if a final judgment is entered.

BERLIN, April 12.—By The Associated Press.—The imperial treasury is paying an average of 109,090,000 marks monthly to the armies of occupation. It was announced today.

PARIS, April 12.—(Havas.)—The council of four today definitely settled the problem of the Sarre Valley. It will be granted to France in perpetuity to work the coal mines and other resources.

PARIS, April 12.—(By The Associated Press.)—The United States has informed the associated governments that American cable censorship on communications to Central and South America and also to the Orient, with the exception of Vladivostok, will be abolished on April 18.

NEW YORK, April 12.—Jess Willard, heavyweight champion has deposited a forfeit fund of \$10,000 to guarantee his appearance in the ring against Jack Dempsey in a bout for the championship July 4. Promoter Tex Rickard announced here today.

BERLIN, Friday, April 11.—(By The Associated Press.)—The Berlin police force has been so ineffective and so powerless to check street gambling, plundering and day-light robberies aggregating millions of marks, that the municipal assembly has adopted a resolution to turn over the police department to Prussia, provided the state is willing to assume charge.

WEIMAR, Friday, April 11.—(By The Associated Press.)—The council on constitution of the national assembly has adopted an amendment to the provision dealing with the election of the German president eliminating royal personages as holders of the presidential office for fifteen years to come.

LONDON, April 12.—The Ukrainian soviet forces have captured Simferopol, capital of the Crimea, and Eupatoria, 38 miles west-northwest of Simferopol, with considerable booty, according to a Russian government wireless communication today.

COPENHAGEN, April 12.—(By The Associated Press.)—The Berlin Swell Uhr Blatt reports that 157 persons had been killed and wounded in the fighting between troops and strikers at Düsseldorf up to last evening. The heaviest fighting occurred when the strikers attempted to cut off the water supply.

We do not know of any better way to prove to you that the "beautiful voice of the singer" is actually re-created.

The
TONE TESTproves that the
NEW EDISON
stands alone

"The tone test advertises your instrument most effectively. Who evolved the idea?" a man once inquired of the makers of the New Edison.

"The tone test evolved itself," was the reply. "It was inevitable that the final perfection of the phonograph should be accompanied by some convincing method of demonstrating its merit. It is not a device for advertising the instrument. It is merely a method of demonstrating the truth of our claim that it is impossible to distinguish the voice of the living artist from that of

The New Edison

"The Phonograph With a Soul"

Unquestionably the tone test achieves this result. Picture a famous star of the Metropolitan Opera Company standing beside the New Edison on the concert platform. The instrument begins to play one of the diva's own Re-Creations. In a moment, the singer joins in, making a duet. Suddenly the volume of sound diminishes. One or the other has ceased. The question is which; singer or instrument? So absolutely identical are the two renditions that no one, unless he watched the singer's lips, has ever been able to state when it was the singer he heard and when the New Edison.

It is only the New Edison which Re-Creates the singer's voice. Other devices merely imitate it. It is only the New Edison which has been subjected to the searching tone test. No other instrument could sustain the test. Call at our store tomorrow and hear a demonstration of this marvelous invention.

FORMER RESIDENT DEAD IN KANSAS CITY

Col. George H. English Passed Away at Age of 85 Years—Cousin of Late Judge English—Veteran of Civil War.

Mrs. Virginia Daniels residing west of the city received a telegram yesterday announcing the death of her brother, Col. George H. English who died at his home in Kansas City, Mo., Friday.

Col. English was born in Newark, Ohio, in 1824 and was 85 years of age at the time of death. He graduated from the high school at Newark and came to Morgan county with his father, Joseph English in 1854 who settled on a farm three miles north of Jacksonville.

He attended Illinois college graduating in the class of 1858. Following graduation he taught school at Greenfield. He was stationed there when the Civil war started and enlisted in the 32d Regiment Illinois Infantry. He served during the period of the war and was twice wounded. The first time in the battle of Shiloh when he was carried from the field apparently dead.

He was wounded the second time at Pea Ridge. Here a horse fell on him injuring his lungs from which he gradually recovered. He received the rank of colonel before the war closed.

At the close of the war he entered the law office of Judge English in Carrollton where he studied law and was admitted to the bar. He was united in marriage many years ago to Miss Maggie Stonestreet in Kansas City. One son survives, Major George English who is now with army of occupation in Germany. He also leaves one sister, Mrs. Virginia Daniels of this county who is the last of a family of 11 children.

Shortly after being admitted to the bar Col. English went to Kansas City where he practiced law for many years. A few years ago he suffered a stroke of paralysis and has since been unable to do active work.

Col. English was highly regarded by his associates in Kansas City. He probably will be remembered by many of the older residents of this city. Funeral services will be held in Kansas City this afternoon.

EASTER IS COMING

Easter is nearly here. We received a large invoice of beautiful hats yesterday and more are constantly arriving and a special line of children's hats will be here in a day or two.

MISS McDOWELL TELLS ABOUT FRENCH WOMEN

Well Known Social Worker Was in Paris When Armistice Was Signed—Manifestation for President Wilson.

Miss Mary McDowell, who is to speak at the community forum tonight at the Congregational church, recently returned from service in France, investigating industrial conditions among the French women for the Young Women's Christian association. Miss MacDowell is a guest at the home of the Misses Dummer on West College avenue and a number of friends greeted her there Saturday evening.

In a recent interview Miss MacDowell laid emphasis upon the hold that President Wilson has upon the hearts of the people of France. The women there, composing a section of the permanent international committee of women, composed of organizations of women, conservative and radical labor unions, socialists, women of different views, university and suffrage women, joined in what they termed a "manifestation" expressing their thoughts of gratitude to President Wilson as the representative of humanity. Miss MacDowell in paragraphs introductory to the "manifestation" said:

"I was in Paris when the armistice was signed and Paris went wild with joy. We celebrated for two days. When President Wilson came Paris made as they say a 'manifestation' for Mr. Wilson. For three days millions of people walked the boulevards, stood in the Place de la Concorde or el Opera. For three days, Saturday, Sunday and Monday, this manifestation was kept up. On the Camp Elisees a sign was hung expressing the people's idea 'Honneur Wilson le Juste.' Across the boulevard leading toward the beautiful Madeline was another 'Honor Wilson, the Guardian of the People.' The people waved our colors with theirs into a medallion of 'Wilson the Guardian of the Right.'"

"The workers of every faction, of different views, following different leaders, came together for the one purpose of 'manifesting' for Mr. Wilson. The women of divergent views, suffragists, university and literary women, women of different labor organizations, of the representatives of the syndicate de l' Habilliment (the garment workers) with eight thousand membership, women who made clothes, costumes, waists, makers of hats, lingerie, embroideries, fur and feather workers, etc. Socialists of different schools. These women that never before had come together for any purpose. Even the war had not united them, they came together and forgot their differences in this great 'manifestation.'"

PASSED WORTHLESS CHECKS

Rosalie Finke who was arrested in Havana on the charge of passing worthless checks, was released yesterday, her father coming from St. Louis and taking up the checks.

The woman is a registered nurse and has been working here for several months. Recently she gave a number of checks, aggregating about \$100. One of these was to the Emporium for \$16.98. There were no funds in the bank and H. S. Greenstone of the Emporium reported the matter to the police.

Patrolman Baker by some good police work located the woman in Havana and she was arrested on request of the local department. Commissioner Martin went to Havana Saturday and brought her back to this city. Her father arrived Saturday and took up the checks and paid the cost in the case and the woman was released.

LIQUOR EASY TO GET IN SPRINGFIELD

Notwithstanding the fact that Capital is Dry, 266 Government Licenses Have Been Taken Out—Many Do Strictly "Private" Business.

Springfield, Ill., April 12. — "It's easy to obtain beer or whiskey in Springfield, if you know how."

This is what is told the thirsty individual who craves for that which the law forbids. Springfield is "dry," having been voted so about two years ago.

But it is a fact that there have been taken out in Springfield 266 government licenses at least 43 of which have been issued to women. A considerable portion of the total is held by druggists who sell liquor for medicinal purposes only. In some of these drug-stores strangers can purchase bottled whiskey if they "look all right."

The brass railing saloon bars have gone but in their places flourish soft drink parlors, or at least the establishments are so listed in the telephone directory. In some of these places a man can purchase whiskey or beer without being identified, while in others a person must have the pass word. If a person should walk into some of these places and innocently inquire if it is possible to obtain a little of this or that, he would be informed that he is in the "wrong place." However, if he should return shortly afterwards and approach the mahogany, toss out his money and order a drink of whiskey or a bottle of beer, he gets "service" from white-aproned attendants, many of whom were bartenders two years ago.

Many of the government licenses are in the possession of persons, men and women, who live in private homes and do a strictly private business with their "friends" only. In these places it is necessary to be introduced by some one who is known to the licensee.

Recently several holders of government licenses were brought into court for "boot-legging," some, including several women, were found guilty and fined from \$50 to \$900 each.

Altho almost 300 federal licenses were taken out, it is understood that a number of these have ceased to do business.

During the recent city election some of the soft drink parlors closed their doors while the polls were open. It was explained that they were acting in accord with a long standing state law which provides that all "saloons" must close on election day. But the police records for election day show that three persons were arrested for being "drunk and disorderly."

J. B. Sears, Lawrence Sears, John Grey and Howard Phillips journeyed from Franklin to the city yesterday.

ILLINOIS COLLEGE NOTES

By action of the college trustees, under M. Raetzmann has been appointed acting head of the modern languages department for the balance of the present year to take the place of Professor Cole. Mrs. L. N. Cardon, a native of one of the French cantons of Switzerland, has been appointed instructor in French for the balance of the present year. Mrs. Cardon was formerly instructor in French in the Ohio State University and her husband is now instructor in the same language in the University of Wisconsin. Mrs. Cardon took charge of the classes in French Wednesday morning.

President Rammelkamp went to Normal on Friday to attend the meeting of the Central Illinois Teachers' Association.

I. B. Potter went to East St. Louis to attend the meeting of the Southern Illinois Teachers' Association on Thursday.

The regular devotional service will be held at Academy Hall Sunday evening.

Dr. William F. Luebke returned to the campus Tuesday. He has been absent for a few days on account of the death of his father.

Hugh P. Green, '09, is training the Whipple boys for their annual contest in declamation. No girls have entered the contest this year. It seems probable that the competition will be held some time in the near future at the chapel exercises. The boys who have entered are: Aurelius Vossler, Elmer Nickel, Lewis Leurg and Robert Miller.

Dr. W. P. Davis, pastor of the community church at Winnetka, Illinois, was a supper guest at Academy Hall Wednesday evening, and after supper gave a very interesting address to the girls on the subject of vocations. In response to a request he gave a very interesting account of the community house at Winnetka.

The address delivered at the chapel exercises by Dr. Ozora S. Davis on Tuesday was one of the strongest addresses thus far delivered in connection with the Reverend George L. Roberts Foundation. Several visitors including most of the pastors of the city, were present at the exercises.

The Chicago Alumni will hold their annual banquet on Thursday evening, April 17th, at the University Club. The banquet will be in the nature of a welcome to the Chicago alumni who have returned from the service. The chief speaker of the evening will be Lieutenant Colonel Joseph A. Capps, '91. President Rammelkamp expects to attend the banquet and will make a brief address.

Mrs. C. M. Herbert, the librarian at the college, has been giving a series of interesting and practical talks to the students on the use of the library.

The Gamma Delta Literary Society entertained a large company of friends in their room in Beecher Hall Saturday afternoon.

BILLS TO REGULATE HANDLING OF EGGS

Retailers May Be Required to Obtain Licenses from Department of Agriculture—Candling of Eggs Required Under Another Measure.

Springfield, Ill., April 12.—An egg is "bad" when it is merely "addled," under the provisions of legislation pending in both houses, and all dealers in eggs, "except those retailers who do not buy from the producers direct and who do not sell in lots greater than one case," would be required to obtain a license from the department of agriculture to safeguard the public against unfit eggs.

Measures, sanctioned by the agriculture department, have been introduced by Senator Ross and Representative Roderick which place stringent regulations upon persons or firms engaged in the egg handling business.

Candling of eggs would be required by persons or companies buying eggs for resale or consignment with provisions for recording the name of the person doing the candling and the date, together with the license number of the company.

The measures also would require those engaged in the manufacture of egg preparations to have a license costing \$300 annually.

Community Meeting at Orleans
On Friday evening the members of the farm bureau living in the vicinity of Orleans met with the county agent at Kinnett's store in Orleans. The general subjects of discussion were, "Organization," and "Home Grown Feeds." F. E. Drury told of his experience with soy beans, and how they were handled on the Meharry Farm at Tolono. The general sentiment seemed to be that meetings of this sort are a good thing and that they should be repeated from time to time as the occasion might warrant. Fred Moeller was elected community chairman.

Twilight Field Meetings.
At the present time these are scheduled as follows:
7 p. m. Tuesday at alfalfa fields of H. F. Garfield and David Stansfield southeast of Murrayville.
7 p. m. Wednesday, C. E. Drake's alfalfa field, northwest of Chapin.

As these meetings are strictly field meetings in which certain definite things are shown, it is important that everybody be there in time to take advantage of the daylight. A cordial invitation is extended to all the farmers in these localities to see what is to be seen and to hear what is said.

Clipping Wheat.
A telegram from Dr. W. L. Burlison of the Crop Production department of the College of Agriculture, states that wheat may be clipped before it starts to shoot, and that it should be clipped high.

Disking Corn Ground.
This is a good practice. If the weather is dry, the mulch will conserve the moisture. Further when the ground is plowed, a good seed bed is made the entire depth of the furrow slice.

WHITE HALL HEALTH CONDITIONS ARE GOOD

Influenza Epidemic Stopped Out—No Damage to Fruit by Recent Cold Snap—News Notes.

White Hall, April 11.—Inquiry of the local board of health reveals that health conditions are good, and there are no cases of influenza, the epidemic having abated more than a month ago. Uneasiness concerning peaches and tender vegetation was dispelled Friday morning with the announcement by the local weather bureau that the minimum temperature for the night was 40 degrees. Thursday night started in stormy and blustery with a temperature of 40 degrees, and several people had provided protection for tender vegetation. Prospects continue good for the first peach crop in five years. Dr. and Mrs. R. A. Hamilton attended the funeral of the farm-

PROF. WM. A. LIPPINCOTT HONORED

The following from the Kansas Agriculturist, a paper published by the Kansas Agricultural college pertains to the son of J. P. Lippincott of this city.

William A. Lippincott, professor of poultry husbandry in the Kansas State Agricultural college, is now secretary of the International Association of Poultry Instructors and Investigators. He was elected at an international conference in London, England, March 11 to 15. He succeeds Dr. Raymond Pearl, who has been the world's most famous investigator of genetics in relation to poultry. Doctor Pearl recently resigned.

At the London meeting there were delegates from Holland, Cyprus, the Transvaal, New Zealand, Canada, Scotland, Australia, France, Belgium, Italy and England. The first world's poultry congress, which was to have been held in Holland at the invitation of the Netherlands government in 1916, and which was abandoned on account of the war, will be held at The Hague in 1921 at the renewed invitation of the Netherlands government. The council of the International Association of Poultry Instructors and Investigators will have in charge the arrangement and supervision of this congress. Edward Brown, fellow of the London society, is president of the association.

Professor Lippincott was also recently chosen a member of the Kansas committee which will cooperate with the National Research council. He is a contributor to the American Naturalist, the Biological Bulletin, and the Journal of Heredity, on subjects pertaining to inheritance in poultry. He is the author of the most widely used college text on poultry husbandry in the English language.

ILLINOIS WOMAN'S COLLEGE

President Harker returned to Jacksonville Thursday afternoon from Evansville, Indiana. Dr. Harker served with Bishop Wm. F. Anderson and Dr. John W. Hancher on the committee to select a college site in Evansville for the college which is being moved from Moores Hill, Indiana. Miss Carlotta E. Hoffman of Aligarh, India is spending several days at the Woman's College in the interest of the Woman's Foreign Missionary Society. Miss Hoffman while in America on a furlough is representing student work of that society. Miss Hoffman addressed the Saturday chapel on "Overseas Work." Before entering upon her work in India Miss Hoffman was a teacher in a Michigan high school. When she informed the super-

tendent of the overseas plans, he urged her to stay because of the need in the local school, but at that very hour the superintendent had fifty applications for the one position. The young woman of the college were urged to think of overseas work as providing opportunities lacking overcrowding by applicants.

The college gladly welcomed visitors from the Standard Bearer's convention on Saturday and Sunday. The evening program was held in Music hall.

The department of physical education, Miss Ruth Stanwood director, gave an exhibition of its work in the gymnasium at the close of the Saturday program.

The Y. W. C. A. put on its "sister college" drive for the benefit of the Madras College this week. The following program was carried out at the banquet Wednesday night:

Menu.
Ahmedabad Jama Masjid
Surya
Dayahago Gayrat.
Itimad-ud-Danla Lucknow
Toasts.
"What is Our Sister College?"—Mabel Weiss.
"M-a-d-r-a-s"—Zay Wright.
"Students of I. W. C. for Students of India"—Lorene Smith.

Following the dinner a stereopticon lecture on the work of Madras College was given in the social room by Miss Ruth Kuss. Thursday morning the financial campaign was launched. The goal set was an average of \$2.00 per student. The indications are that the amount raised will be a considerable increase over last year's gift.

Miss Minnie Terry of Evanston, Illinois, who was attending the Standard Bearer's Convention, is being entertained at Illinois Woman's College. Miss Terry is the daughter of the late Professor Milton S. Terry of Garrett Biblical Institute.

Vice President Nyman returned Saturday morning from a visit to Camp Point, Loraine, New Salem and Beardstown. Group meetings calling together pastors, Sunday school and Epworth League workers, were held in these towns. The Rev. F. H. Knight of Chicago and the Rev. E. L. Houseley of the Philippine Islands were the other speakers on the programs.

The Wesley Mather's Contest which was held on Monday evening, proved a most interesting and generally satisfactory contest. All six contestants were Freshmen and all appeared in selections dramatic, thus making the work of the judges somewhat less complicated.

Some excellent work was shown particular mention should be made of Miss Remley's reading, "Benefits Forgiven." That difficult character to portray—Lincoln—was handled most admirably. The first prize was awarded Miss Bollenbach in her reading of "The St. John's Fund." The second prize fell to Miss Forsythe with "The Heart of Old Hickory."

Miss Dorothy Remley repeated her reading of the contest at the missionary meeting held on Tuesday evening at the home of Mrs. Flecher. Mrs. Remley, who came to spend the week-end with her daughter, was a guest of honor at the meeting.

The Dramatic Club play has been postponed on account of other events in town and at the college until May 19th.

You will be interested to know that the play to be presented is one that the Devereux Players, so recently at our college, presented on their tour last year, "The Romancers" by Rosetand. It is a delightful three act comedy and full of romance and beauty.

CONSERVATORY NOTES

Mr. Arthur Middleton, baritone, who gives a song recital next Thursday evening, April 17th, at Northminster church under the auspices of the Woman's Club, is a close personal friend of Mrs. Genevieve Clark Wilson, with whom he has appeared in concert and oratorio. It is thru Mrs. Wilson's influence that Jacksonville is to have the privilege of hearing this splendid singer, whose reputation is constantly growing.

There will be a students' recital next Thursday afternoon, April 17th, in Recital hall at 4:30 o'clock. The public is cordially invited.

Miss Audrey Hall, violinist, will give a recital in Griggs hall, assisted by Miss Edna Hackett, soprano, on Monday evening, April 21st. She will give the same program at the School for the Blind on Sunday afternoon, April 20th.

Mr. Munger will give a piano recital in Springfield on Friday evening, April 25th in the Y. W. C. A. auditorium.

It is planned to give the spring festival concert on Friday evening, May 23rd and the graduation recital on May 30th.

The postponed reception for students of the College and Conservatory was given at the home of Mr. J. G. Ames on Saturday evening, April 12th.

The Minneapolis Symphony Orchestra will give two concerts, afternoon and evening, in Springfield on Thursday, May 1st, at the Arsenal. A number of students of the conservatory are expecting to attend.

FUNERAL SERVICE

The remains of Mrs. Sarah E. Scott, whose death occurred this week in California, will arrive here Sunday evening or Monday morning, accompanied by her daughter, Mrs. Blanche Conner. Upon arrival here the remains will be taken to the undertaking rooms of W. W. Gillham, and interment will take place Monday afternoon at one o'clock at Diamond Grove cemetery, burial services being in charge of Rev. A. A. Todd.

PARENT-TEACHER MEETING

The Parent-Teacher's meeting of the second ward will be held at the Lafayette school, Wednesday afternoon at 2:30. Miss Catherine Olmstead will tell of her war experiences and Mrs. Robert Stice will favor the company with a vocal solo.

Every mother knows that coughs and colds, neglected, may lead to the most dread diseases. Croup, bronchitis, pneumonia and consumption often have their beginning in a slight cold.

The wise mother gives

Foley's Honey and Tar at the first signs of a cough or cold. She knows it stops coughs quickly, puts a soothing, healing coating on an inflamed and tickling throat, and gives a feeling of warmth and comfort to the sufferer.

Mrs. M. E. Gilbert, Ashland, Penn., writes: "Foley's Honey and Tar is the best cough and cold remedy I have ever tried. When my little girl gets a cold on her chest, I give her a few lozenges and it relieves her right away."

A Brief Statement About Hudson Leadership**Automobile History That Motor Car Buyers Should Remember**

Note these facts which prove Hudson Super-Six leadership. They are convincing reasons for its preference among all fine cars.

An exclusive type motor which so minimizes vibration that automobile endurance has been increased beyond previously known limits.

That was proved on the speedway, in hill climbs and in transcontinental touring. Official records accord the Hudson Super-Six first honor in nearly all worthwhile events.

For three years the Hudson Super-Six has led all fine cars in number of sales.

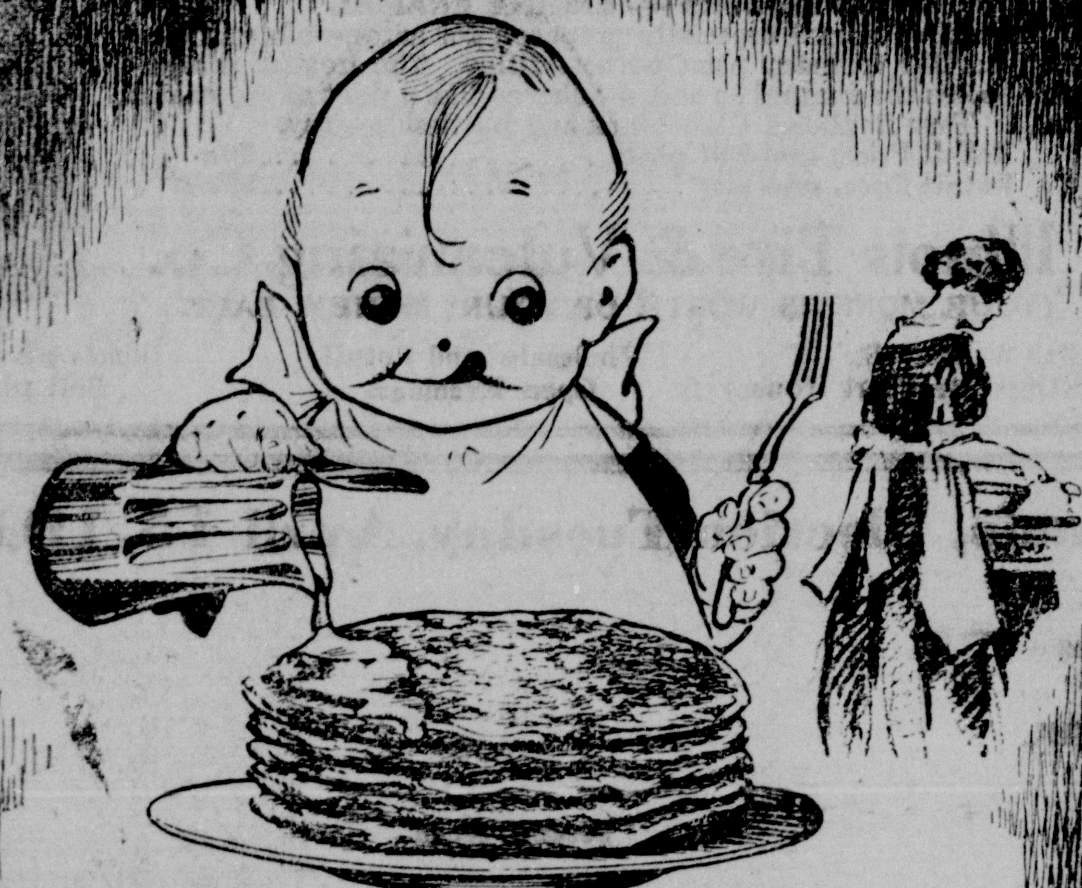

Its body types forecast the trend of motor car design. Note how cars at this year's auto shows reveal the influence of last year's Hudsons. Look for the new square lines of present Hudson models to be the generally accepted standard of the cars next fall.

Then think of the service your neighbor has had from his Hudson Super-Six. You must know many who own Hudsons. More than 60,000 are in use.

And don't forget that thousands have been disappointed each spring because there were not enough Hudsons to meet the demand. Open car production is off while closed cars to meet present demands are coming through. A few dealers have some open cars. Get one now, if you can, if that is the type you prefer. Otherwise you may have to wait longer than you want to.

CALUMET BAKING POWDER

"BEST BY TEST"

The greatest advancement ever made in the manufacture of baking powder—so perfectly made that you're always sure of the very best baking results. Its leavening strength never varies. The last spoonful as good as the first. No failures. It raises the quality of your bakings and reduces baking costs.

It is sold at a moderate price and you use only half as much as of most other powders.

A product of the world's largest, finest, most sanitary baking powder factory. Used in the U. S. Army and Navy—by the most eminent Domestic Scientists—in more homes than any other brand. Its superiority has made it America's leading seller.

CALUMET GRIDDLE CAKES

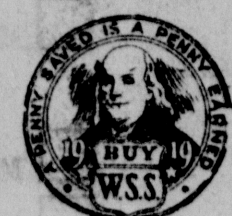

2—Level cups flour 1—Level tablespoon sugar
2—Level teaspoons Calumet Baking Powder 2—Level tablespoons melted shortening
1/2—Teaspoon salt 2—Eggs, yolks
1 1/2—Cups milk or water

How to Make Them: Mix dry ingredients in flour. Beat egg yolks and melted shortening in the liquid, add only a part of the liquid, mix until smooth. Then add gradually the balance of the liquid until batter is of the proper consistency. According to the strength of the flour more or less liquid is required. Bake on hot griddle well greased.

Paste in your Recipe Book for future reference.

Have You Noticed This?

When you buy a pound of Calumet you get a full pound—16 oz. Some high priced baking powders are now being put on the market in 12-oz. cans instead of a pound. Be sure you are getting a pound when you want it. No short weights with Calumet.

PREPARATIONS FOR INTERSCHOLASTIC MEET

Plans are progressing for Illinois College Event to be held May 12—Has Become One of Largest in Middle West—Great Records Made.

Plans are rapidly formulating for the fourth annual interscholastic meet to be given under the auspices of Illinois College on Illinois field Friday May 9.

For several weeks Coach Harmon has been busy with details. Now the advertising matter is out and inquiries are already coming in from many schools throughout this section.

The meet is only four years old it has developed in that time into the largest in the state outside of the University of Illinois state meet and the University of Chicago meet.

Last year owing to the war and the fact that all students were engaged in war work, no meet was held. The first meet was held in 1915 and was won by Jacksonville with Beardstown second, Pawnee third and Springfield fourth.

Jacksonville Twice Winner. In 1916 Springfield won with Jacksonville second and White Hall and Beardstown tied for third place. In 1917 Jacksonville won after an exciting battle with Springfield by two points. In order to do this Reynolds ran a dead heat with Dunne in the final of the 220 dash and each was awarded a gold medal. Then he set a new broad jump record of 22 feet 1 1/4 inches which brought home the bacon. Reynolds and Hull in this meet scored 25 points out of 27 made by Jacksonville.

Eilson and Dunne who were on the Springfield team have since won further honors in athletics. Eilson entered Northwestern university and made good on both the football and baseball teams. He then entered Great Lakes naval station and played on the famous football team which was regarded as the best in the army or navy. He achieved great fame for his run in the game with the navy at Annapolis last fall.

Jerome Dunne, better known as "Duke" entered the University of

Michigan at the close of his high school career, being the third of the family to go to the Michigan school and the third to make the university football team. Dunne was placed at end by Coach Yost and immediately made good and promises to be the greatest athlete of all the Dunnes who have attended Michigan.

During the time that the Illinois meet has been held seventy different schools have sent entrants. These schools ranged from monmouth in the North to DuQuion and Herrin in the south and from many other cities in this section. Seven hundred and ninety-five different athletes have competed.

Perhaps no prep meet has ever turned in such wonderful records as those made at the Illinois meet. Many of them will compare favorably with college and even university records.

Some of the Records. Angier of Beardstown holds the javelin record of 169 feet 3 inches. In the pole vault Routzahn of Girard set the mark at 11 feet 6 inches and Kinzer of White Hall holds the high jump record of 5 feet 11 1/4 inches. Reynolds of Jacksonville set the broad jump record at 22 feet 1 1/4 inches.

Other records show equally good. King of Palmyra and Jordan of Pawnee are tied in the 100 yard dash at 10 seconds. Jordan also has the 220 record of 23 seconds. Ed Tomlinson of Jacksonville has the 120 high hurdle record at 18 1/5 seconds.

The track and field events will start promptly at 1 o'clock new time. Harry Gill track coach of the University of Illinois will be the referee and starter.

Relay Race to Count. A new feature this year is the relay race which will count in the scoring for the championship.

Heretofore it counted only in case of a tie. The winners of first, second and third places will receive gold silver and bronze medals. The trophies and prizes are of special design and any athlete who carries one away as a souvenir of his athletic prowess may consider himself fortunate.

There also is a declamation contest will be held Friday evening the meet. In past years this has proved a great success and has had a large number of entries. The finals in the declamation contest will be held Friday evening at 7:30 o'clock. The time of the preliminaries will be announced later.

NOTICE

There will be some good horses, cows and heifers offered at the C. N. Priest sale, Thursday, April 17. If interested, don't fail to attend.

FUNERAL NOTICE

Funeral services for Bernard Walsh will be held from the Church of Our Savior Monday morning at 8:30 o'clock.

ARTHUR MIDDLETON TO BE HEARD IN RECITAL

Famous Baritone Will Appear Under Auspices of Woman's Club—Concert Will be Given in Northminster Church.

One of the musical events of the season will be the appearance in concert here next Thursday evening of Arthur Middleton baritone of the Metropolitan Opera company under the auspices of the Woman's Club.

It is the custom each year for the Woman's Club to give an event of this kind. This year each member is privileged to take a guest and a nominal charge of 35 cents will be made. Tickets may be procured at Brown's music store.

"PASSING THE BUCK?"

Editor Journal:

In an editorial Saturday evening the Courier endorsed my opponent, Mr. Pyatt, for city clerk. I am not making any complaint about that, as it has no claim on me nor have I any on it. I have paid in advance for every line that I have had printed in the Courier including next Monday's issue. The outstanding feature in the fact that members of the present administration are backing Mr. Pyatt. I have been told that all of them are working hard to defeat me. Now, if the endorsement of the present administration is to be the issue in the election of a city clerk, I welcome it. And why not, for it is a fact that none of the commissioners are running for anything so as to give the people a chance to say what they think about the record of four years illy spent, not to speak of the good money squandered also. In short, are they not "passing the buck" to poor "Dick"? Some one once said: "May the good Lord preserve me from my fool friends; I can take care of my enemies myself."

MAVERICKS

We always have the court jesters with us.

We have no objection if certain of our citizens who think so well of the Soviet government for permanent residence.

Attorney Hairgrove started out to reform Jacksonville away back in 1905, and the some people may not give him credit for it, we believe Jacksonville has really improved some.

Sheriff Hank Mester says that Yegg men fight shy of Springfield because of the vigilance of the police and sheriff's force. Sure, they are afraid they will get robbed if they venture into Springfield with any loot on them.

Our esteemed contemporary says that Jacksonville has no soft drink parlors that have to close on election day. Of course it is not expected that lady reporters would know anything about soft drink parlors, but we have an idea from outward appearances that there are several operating in the city and that they don't even close for church services, much less elections.

We have never had the pleasure of reading the platform of the Soviet government in Russia. However, so far as we can see from outward appearances its main object is murder, rapine and looting.

Attorney Hairgrove's address on the city administration was largely one of reiteration as almost everything possible had already been said about it.

We learned with great surprise Friday that President Wilson had won his fight to have the Monroe Doctrine exempted from the league of nations plan.

Coming close upon the heels of recent utterances of the President himself that a league of nations as recommended by him upon his return to the United States a few weeks ago did not in the least interfere with the Monroe Doctrine it makes us gasp with astonishment.

Men who have been supporting the president in his league of nations plan will also have to sand

the track and reverse themselves, league of nations plan. Perhaps it We rather imagine that our will be permissible now without friend, Prof. Garner of the University of Illinois who allowed distraction and beautiful English that the fears of Senators Lodge, of the resolutions to tear them Knox and Borah about the Monroe Doctrine were all "bunk" will change his mind a little and re-hearse a new speech.

Then we have our own little league of nations which was launched at the David Prince school a few nights ago. The resolutions adopted at that time were in accord with the administration. Now, however, the administration has made a "brilliant fight" for preservation of Paxton, has left at the office the Monroe Doctrine in the

Well, anyway the election will soon be over.

TO THE VOTERS OF JACKSONVILLE:

Thirty-three citizens, of their own free will and accord, it appears from the returns wrote my name on their ballots as a candidate for City Clerk at the primary election held on March 11th. I was not an avowed candidate, or I should have filed a petition as was suggested to me. Of the thirty-three voters, I knew of the intentions of only three previous to the election and since then possibly eight or ten have told me how they voted. Of the remainder, I am not yet aware of their identity. However, since these friends (?) of mine went to the trouble of writing the name on their ballots and as many others have urged me to become a candidate, I decided to let it go at that and if elected April 15th, that I will serve to the best of my ability. I do not feel, as has been intimated to me on one or two occasions, that I am attempting wrongfully to deprive any one of "his job", because up to date what support I have received has been voluntarily offered and wholly unsolicited. Furthermore, the position is one to which each and every citizen of Jacksonville has the same right to aspire as any other citizen. I believe in a fair, clean contest and so far as I am concerned, nothing of a personal nature will be injected into this one, nor sanctioned by me if started by others.

I am heartily in accord with the views and sentiments of a local minister, whom I heard preach a sermon on politics a short time ago. He said every good citizen took an interest in politics and exercised his voting prerogative whenever opportunity offered. He advised voters to study the lives of not only the candidates, but also their friends and enemies. I do not know who my enemies are or may be, but I certainly am not ashamed of my friends and associates, or their records.

I lived in Morgan county for twenty years, and attended the High School and Illinois College in Jacksonville; am an Alumnus of the latter institution. Later I went west with the well known firm of Greenleaf & Baker of this city, returning home five years ago. My occupation has been largely that of a bookkeeper and general office work, with five years in newspaper work. For the last five years I have been with J. Capps & Sons.

I naturally shall be pleased if elected, but if a majority decide adversely, I shall be neither offended nor unduly disappointed. I believe every voter should enter the voting booth untrammelled and free to vote as his conscience dictates. Hence, I would not exact a promise to vote for me even from my best friend. "Barkis is willin'." Let the voters decide.

Respectfully,
WILLIAM H. SLATER.

Paris, March 19.—(Correspondence of the Associated Press)

The first names on the alphabetical list of the American expeditionary force is Private Aaa and the last is Corporal Zzeppenfelt. Between the two names are more than 2,000,000 others.

George Washington, Abraham Lincoln, General Ulysses S. Grant, Robert E. Lee, Woodrow Wilson, several Caesars and a few Bismarcks adorn the ranks with intermittent frequency.

Excluding the commander-in-chief of the army and navy, there is but one Woodrow Wilson. He is a private, and according to Stars and Stripes, has just been placed in the working personnel of base hospital No. 27, which was organized in Pittsburgh.

There is an abundance of the names of great men including 74 George Washingtons. The name of the first president is surpassed by 79 Robert E. Lees, who holds the record for bearers of the name of great men. There are four Abraham Lincolns and seven Grants; twelve Caesars and four Bismarcks.

Among the "common people" there are about 51,000 Smiths. True to their traditional preeminence of the directories of most cities, they dominate the American expeditionary force in numbers. There are 39,000 Johnsons, 22,500 Joneses and a like number of Greens. Sullivans aggregate 10,500, Browns 9,000 and Cohens 4,500.

L. O. HALE WRITES PARENTS

Helmdange, Luxemburg, March 13, 1919.

My Dear Mother, Father, Sister and Brother:

Just a few lines to let you know that I am well and feeling fine and hope you are the same.

We have been having some very nice weather here the past week or so and I sure hope it keeps it up although it has been a little chilly today.

I have asked our commanding officer for next week and I am going to look up all the boys of old Co. B. I suppose I will be able to find the largest part of them as I know of that was killed was L. L. Dickson. I was awful sorry to hear that he was killed as I would like to have seen him very much when we all got home. He was one of the best officers that I ever knew or was under. He was all for the men, but speaking of good officers we sure have some first class ones in this company and I like them all and I suppose almost every one in the outfit does except the fellows who are always getting extra duty and they wouldn't be able to get along with any one.

Well, mother, as there isn't very much news I will close for this time with lots of love and kisses.

As ever your son and brother, Lawrence.

Mrs. Westmoreland Tells in the Following Letter.

Time Brings Joy And Happiness

As the Hours Pass the Coming of
Baby Draws Nearer—Are
You Prepared?

No woman awaiting the joy of coming motherhood should allow the days to pass without using the wonderful penetrating action, Mothers' Friend. By its regular use throughout the period the system is prepared for the coming event and strain and tension is relieved. It relaxes the broad, flat abdominal muscles and they readily yield to nature's demand for expansion. As a result the nerves are not drawn upon with that peculiar wrenching strain, and nausea, nervousness, bearing down and stretching pains are counteracted. The abdomen expands easily when baby arrives and the hours at the crisis are naturally less. Pain and danger as a consequence is avoided. Mothers' Friend not only allays distress in advance, but assures a speedy recovery for the mother. The skin is kept soft and smooth and natural and free from disfigurement. Write to the Bradford Regulator Company, Dept. J, 3400 Building, Atlanta, Georgia, or the Mothers' Friend Book and procure a bottle of Mothers' Friend from the druggist. It is just as standard as anything you can find.

Consipated Children Gladly Take "California Syrup of Figs"

For the Liver and Bowels

Tell your druggist you want genuine "California Syrup of Figs." Full directions and doses for babies and children of all ages who are constipated, bilious, feverish, tongue-coated, or full of cold, are plainly printed on the bottle. Look for the name "California" and accept no other "Fig Syrup."
